— ABOUT THE EVENT

The event is a technical training to showcase Curtiss-Wright Surface Technologies' diverse range of quality metal surface treatments, including shot peening, laser peening, engineered coatings, and material testing and analysis. Our proven metal surface treatments meet industry demands for lighter materials and improved performance and life extension in key markets such as aerospace, chemical, automotive, energy, medical, and general engineering.

SHOT PEENING

LASER PEENING

ADDITIVE MANUFACTURING

POST PROCESSING

SUPER FINISHING

SHOT & LASER

PEEN FORMING

DRY FILM LUBRICANTS

**MATERIAL TESTING
& ANALYSIS**

THERMAL SPRAY COATINGS

**PLASMA ELECTROLYTIC
OXIDATION (PEO) COATINGS**
